## **Battery Energy Storage Facility**

This proposed Battery Facility in San Juan Capistrano was voted down by the city. It's also opposed by the adjacent city of Laguna Niguel. The location is surrounded by brush fire terrain that borders a major freeway on one side, and on the other, a steep hillside bordering a large residential development. The toxic nature of the hazardous material in question, and being highly combustible, combined with its location, makes this facility and its potential extreme dangers unacceptable. I urge the Energy Commission to reject this project, Thank you for consideration.
