Subject: Opposition to the Fountain Wind Project in Shasta County

Dear Mr. Payne and members of the California Energy Commission,

As a resident of Shasta County, California, I strongly oppose the Fountain Wind Project. Considering the potential environmental, social, and economic risks associated with this project, I believe it must be carefully considered and addressed.

Shasta County residents have made it clear that they do not want the Fountain Wind Project in their communities. As well as negatively affecting our small rural way of life, we also believe this project will negatively impact wildfire safety, aerial firefighting, local wildlife, habitat disruption, and the beauty we are privileged to enjoy.

I urge the California Energy Commission to conduct a thorough and transparent review of the Fountain Wind Project, considering the potential consequences it may have on the community and environment. It is essential that all relevant stakeholders, including local residents, are given the opportunity to voice their concerns and have their input taken into account during the decision-making process, especially considering that Shasta County has twice rejected this project already.

Thank you for your attention to this matter. I trust that the California Energy Commission will carefully evaluate the concerns and objections of the residents of Shasta County before making any decisions regarding the Fountain Wind Project.

Sincerely,

Debbe Fontana
