## **Where i can contact the manager plant**

I am a renewable energy engineer student in the University of Sonora, in my previous courses i learned about solar thermal energy and knew about the Ivanpah plant, i would like to have contact with whoever who can arrange a meeting/visit to the plant.

I am very interested a couple of teachers and other students

Also i have to do my practices before i graduated, saying this if you have an internship program it would be amazing to apply all the knowledges i have acquired.
