Against Proposed Battery Energy Storage System

Hi there,

We are residents and homeowners in Laguna Niguel Crystal Cay Community and we oppose the build of this proposed plan of the Battery Energy Storage System. This proposed plan is not an efficient use of land especially long term. It can expose our community to hazardous material and result in future health concerns and lawsuits. This is a public health matter. This build will have a biological impact as it will displace all of the species in this area. Please do not approve it.

We love to use these trails and visit the farms down the hill. Let's preserve the remnants of nature this area offers geographically.
