Opposition to Lithium Battery Farm- sale of Rancho Capistrano property to Compass Energy

I oppose the sale of the Rancho Capistrano property to Compass Energy for the creation of a Lithium Battery Farm. Lithium Battery Farms are extremely dangerous and should not be built next to residential homes and schools. Additionally, the 5 freeway is next to that property. Were there to be a fire or explosion at that site, the 5 freeway would be damaged/ shut down/ inoperable. JSerra Catholic High School is adjacent to that property, putting 1300+ students and teachers at risk. Lithium Battery Farms should only be built in rural areas, far away from a busy freeway and neighborhood areas. Please do the responsible thing and prevent this sale and subsequent building of the lithium battery farm.
