## **Lithium battery site**

This is a very unsafe place to many houses / schools/ historic land marks at risk. Also we will never be able to get house insurance cause of fire risk . They should use land fill I heard there is a spot 20 miles away where houses are not at risk . Also will toxins in water . This is criminal that this can happen. I have worked so hard for my home of 33 years that can now go up in flames and will not get insurance.  
Please find another location thankyou kindly Noreen
