## **Unnecessary - send it away**

We should be hiding these sorts of land uses, not putting them below beautiful walking trails and next to water sources as well as 100,000s of people. An emergency situation would be a nightmare for some of the most beautiful land in the world. We just shut down San onofre. I heard about a lithium spill on the 15 a few weeks ago that took 2 weeks to put out. The highway was closed creating havoc. This can't take place on the 5 freeway in the middle of Orange County. Sorry - take a hike.
