## **Opposed to Compass Battery Plant at Saddleback Church**

As a resident of San Juan Capistrano with a home that backs to open space, I am vehemently opposed to Compass Energy Storage's proposal to build a 250-megawatt battery energy storage system (BESS) on 13 acres of land owned by Saddleback Church. It was rejected by our City Council because of the danger of putting a highly flammable battery plant so close to residential homes in wildfire vulnerable areas. Please follow the lead of the local governments and residents who do not wish to have such a dangerous plant nearby.
