## **Councilmember Commenting As Resident**

I am an elected Councilmember of the City of San Juan Capistrano. I am expressing only my personal opinions. I voted against project, not because I am against energy storage (even at other possible locations in San Juan Capistrano), but because this location is horrible. The location sits between a vital rail link, Interstate-5, and immediately abuts an inland waterway with an unstable and shifting bank. Not only that, homes from a nearby city sit immediately above it. We do have another suitable location across town that is worth exploring should Engie wish to do so.
