## **Very Concerned**

I grew up in Laguna Niguel and chose to start a family of my own in the same city because of its location and safety record. However, this proposed battery energy storage facility is threatening the public safety LN residents have come to know for so long. My family and I have serious concerns particularly regarding the significant fire hazards, risks of explosions and contamination of the land linked to the battery energy storage facility. I urge the Commission to carry out its responsibility by rejecting this proposed project.
