SUMMARY OF POST CERTIFICATION PETITION PETITION FOR POST CERTIFICATION CHANGE TRACY COMBINED CYCLE POWER PLANT (08-AFC-07C)

On August 30, 2024, the MRP San Joaquin Energy, LLC,) filed a Post-Certification Petition for Changes in Project Design, Operation or Performance and Amendments to the Commission Decision (Petition) (TN#[258744](#)) with the California Energy Commission (CEC) for the Tracy Combined Cycle Power Plant (TCCPP) pursuant to California Code of Regulations, title 20, section 1769.

The TCCPP is a 330-megawatt (MW) combined-cycle, natural gas facility that was certified by the CEC in March 2010 and began commercial operation in November 2012. The facility is located in the City of Tracy, San Joaquin County.

SUMMARY OF PROPOSED CHANGES

The project owner seeks the CEC approval of:

- Electrical interconnection to the nearby Pacific Gas & Electric Company (PG&E) Schulte Substation at 115 kV via a new line from the Generator Step-up Transformer (GSU) of the future Long-Duration Energy Storage (LDES) project that is not jurisdictional to the CEC. This interconnection requires installation of approximately 350 feet of 115 kV cable between the LDES project and the proposed line tap structure.
- Construction of a 0.02-acre line tap structure, which will house electrical equipment including switches to combine the LDES project's 115 kV gen-tie line with the existing TCCPP 115 kV gen-tie line. The proposed line tap structure will be located adjacent to and outside of the southwest corner of the PG&E Schulte Substation.
- Construction of a dedicated fire water supply connection to the TCCPP raw water supply via a new 430-foot-long, 6-inch diameter, PVC pipeline.

For additional information, go to the [CEC's project webpage](https://www.energy.ca.gov/powerplant/combined-cycle/tracy-combined-cycle-power-plant) (<https://www.energy.ca.gov/powerplant/combined-cycle/tracy-combined-cycle-power-plant>). In the box labeled "Compliance Proceeding" click on "Docket Log" to access documents for this proceeding.

REVIEW PROCESS

This petition is reviewed pursuant to California Code of Regulations, title 20, section 1769. The review process includes an evaluation of the effect the change

could have on the environment; the project's compliance with applicable laws, ordinances, regulations, or standards; and whether a change to, or deletion of any condition of certification adopted by the CEC in the final decision or subsequent amendments is required.

After staff has completed its independent review and analysis of this petition, the assessment will be published for public review and comment. Included in the staff analysis will be written notice of staff's intent to either process the proposed changes as a staff-approved project change or schedule it for consideration by the CEC at a regularly scheduled business meeting.

PUBLIC PARTICIPATION

This summary of the post certification petition is being mailed to the following persons on the CEC's mailing list for the project: interested agencies, members of the public, property owners who requested placement on the mailing list, and property owners within 500 feet of linear features (for example, pipeline) and within 1,000 feet of the facility. The notice is also being sent electronically using the Tracy Combined Cycle Power Plant electronic subscription service. The electronic subscription service is an automated CEC system by which information about this facility is emailed to parties who have subscribed. To subscribe, go to the [CEC's project webpage](#), cited above, scroll down the right side of the project webpage to the box labeled "Subscribe," and provide the requested contact information.

Any person may comment on the petition or the staff analysis when publicly available. The CEC encourages use of its electronic commenting system. To use the CEC's electronic commenting feature, go to the CEC's project webpage, cited above, click on the "[Submit e-Comment](#)" link, and follow the instructions in the online form. Be sure to include the facility name in your comments.

Written comments, attachments, and associated contact information (for example, address, phone number, email address) become part of the viewable public record. This information may also become available via any internet search engine.

Written comments may also be mailed to:
