**RE: Pacific Gas and Electric Company Rates for Load Management Standards Compliance**

Dear CEC Load Flexibility Staff:

In compliance with the California Energy Commission's (CEC) Load Management Standards (LMS), Pacific Gas and Electric Company (PG&E) files to the LMS docket (23-LMS-01) the future rates and programs PG&E plans to use to comply with the January 1, 2027, requirement in Cal. Code Regs. Tit. 20, § 1623(d).

In PG&E's 2023 GRC II Application (A.) 24-09-XXX filed Sep 30, 2024 with the CPUC,<sup>1</sup> PG&E proposed LMS-compliant Real Time Pricing (RTP) rates for all customer classes except streetlighting.<sup>2</sup> The Notice of Availability for PG&E's 2023 GRC II is enclosed. The rate schedules that PG&E anticipates would have an RTP offering upon approval of PG&E's RTP proposal in A.24-09-XXX,<sup>3</sup> are the following by customer class:

Rate Class	Supported Rate Schedules
Residential	E-ELEC, EV2-A
Small Commercial	B-6
Medium Commercial	B-10
Large Commercial	B-19
Industrial	B-20
Agricultural	AG-A1, AG-A2, AG-B, AG-C
Business Electric Vehicles	BEV-1, BEV-2

Please note, however, that as PG&E's RTP offering evolves through CPUC and stakeholder feedback, the specific rate schedules for which RTP will be available for a given customer class may change.

PG&E would like to thank the CEC for its continued engagement and collaboration on implementation of the LMS requirements. Should staff have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Jennifer Privett
