RE: Submission of San Diego Community Power's List of Demand Flexible Programs and Cost-Effectiveness Framework to the California Energy Commission ("CEC") Executive Director Pursuant to California Code of Regulations, Title 20, Division 2, Chapter 4, Article 5, Section 1623.1(b)(3)

Dear Mr. Bohan,

Pursuant to the California Public Resources Code Section 1623.1, San Diego Community Power ("SDCP"), a Community Choice Aggregator ("CCA"), is writing to submit a current list of load flexibility programs available, or soon to be available for customer enrollment. These programs are approved by SDCP's Board of Directors or within the authority of the Chief Executive Officer, Karin Burns, to evaluate implementation and cost-effectiveness on behalf of the governing Board.

The list of programs in the accompanying Excel template aligns with the CEC's mission to support load shifting and load flexibility. Through our programmatic initiatives, SDCP seeks to design and deliver a portfolio of programs that can effectively reduce its peak load, deliver direct bill savings to program participants, reduce procurement risks and costs, and enable lower rates for the broader community.

SDCP appreciates the opportunity to update the CEC on our current programmatic offerings. If you have any questions or requests for additional information, please contact Stephen Gunther at sgunther@sdcommunitypower.org.

Sincerely,

Stephen Gunther
