## **Please don't build a BESS in our backyard**

As a young, first-time homeowner in California, it was a miracle I was able to get insurance on my home being so close to a wilderness preserve. Our neighborhood is beautiful, with walking trails, and has a high quality of life.

Our community is afraid we won't be able to get community-wide condo insurance or individual insurance if the proposed BESS station goes through. We are worried for the wellbeing of the wilderness preserve.

While I'm really grateful for your efforts to serve the community and environment, please consider alternate routes to use the government funding provided or build the station elsewhere. Thank you!
