## **RPS-2021-02 Guidebook Proposed Scope, preventing double counting**

RPS-2021-02 Guidebook Proposed Scope, preventing double counting

To preventing double counting, the Guidebook Proposed Scope must include a section with these statements:

"No party may sell, trade, give away, claim, or otherwise dispose of any of the attributes associated with the generation that are necessary for the resulting electricity to comply with the definition of a REC as defined in the Glossary of Terms in this guidebook."

"All retail contracts that sell, trade, give away, claim, or otherwise dispose of any of the attributes associated with the generation that are necessary for the resulting electricity to comply with the definition of a REC as defined in the Glossary of Terms in this guidebook shall be filed with the Energy Commission."
