Opposition to Compass Energy Storage Project

I am vehemently opposed to the development of the proposed BESS facility in San Juan Capistrano!

Due to fire risks and potential toxicity and the close proximity of homes and schools, this project should not even be a spec of a consideration.

It is my understanding that the city of San Juan Capistrano and Laguna Niguel do not want this facility in their communities. Please listen to the people! THIS IS A MATTER OF PUBLIC SAFETY! Weâ€™ve all seen in recent news the dangerous consequences these batteries can cause. Letâ€™s prevent a catastrophic event that could result in loss of life of children and adults.
