**(D) Reason for Extension Request**

This is the first instance in which the California Energy Commission (Commission) requests SFPUC to file the Transmission Form T-1, necessitating additional time to collect, validate, and accurately compile the information requested. Regrettably, we experienced an unforeseen delay in the initial stages of collecting the appropriate information, which has impacted our capacity to prepare in a timely manner. Although the data compilation process has now commenced, collecting the detailed information requested will require a greater allocation of resources than anticipated.

After SFPUC discussed the circumstances with Commission staff, staff recommended SFPUC submit a request for extension even if it fell beyond the 15-day requirement to file a request per section 1342(c)(1). In coordination with the department responsible for completion of this report, SFPUC respectfully requests an extension to February 14, 2025, to allow for comprehensive compliance with all regulatory requirements.

**(E) Commitment to Compliance**

We have engaged the relevant department and are fully committed to diligently working together to complete the form by the requested deadline, ensuring full compliance with all applicable requirements. In addition, SFPUC intends to timely file other requested IEPR Supply forms S-1, S-2, S-3, and S-5 by the November 15th deadline.
