Residents of Vacaville against BESS

To whom this may concern,

As a resident of Vacaville, CA, I and many others do not want a BESS facility in our city and county. We live here because we consider this our forever home with our young children and families. I can say this for many others in my neighborhood. We chose this city because it is safe. We don't want the uncertainty that BESS can bring to our community such as toxic smoke in case of fire, and if no fire a decrease in home values making our city an undesired city to live in California. There is no positive for our community if BESS is built here.
