NO to lithium BESS Yes to safer options

As a resident of Vacaville near the Dixon/Vacaville substation for PG&E we are well versed in this big companies coming to our community and trying to put these safety hazards in our community. As a member of Keep Vacaville Safe we are not against green energy. We are against Lithium Ion storage. Our county and city have imposed a moratorium on these types of facilities in order to develop Ordinances are created to ensure public safety. The simple fact that Next Era is now attempting to bypass our process, shows they DO NOT CARE about community safety.

Please support our local County and City representatives in their efforts to protect our community while exploring safer methods of green energy.

Thank you,

Tonya Y Espinoza
