## **No on BESS**

This is NOT an area for a Battery Energy Storage System. My residence has only one exit onto a busy two lane road. In the event of a lithium ion fire, my neighbors (most are senior citizens) and I would likely be stranded.

Not to mention the closeness to agricultural land within Vacaville and Dixon. There is no data that secures our safety with preventing an accident that would lead to polluting our air and water. Please stop progress on this project now. Our health is at stake.

Thank you.
