SETTLEMENT AGREEMENT AND RELEASE

This Settlement Agreement and Release (Agreement) is entered into between the California Energy Commission (CEC), with its principal office at 715 P Street, Sacramento, California 95814, and Reliance Worldwide Corporation (RWC), with a place of business at 2400 7th Avenue SW, Cullman, Alabama 35055 collectively referred to as the Parties.

I. RECITALS

(1) CEC's Appliance Efficiency Regulations at California Code of Regulations, Title 20, Article 4, sections 1601-1609 (Appliance Efficiency Regulations),¹ set forth the requirements to sell or offer for sale regulated appliances in California. The pertinent requirements include:

- Testing: The appliance is tested as required in section 1603, using the applicable test method set forth in section 1604.
- Efficiency: The appliance meets the required efficiency standards set forth in sections 1605.2 or 1605.3.
- Marking: The appliance is correctly marked and labeled as required under section 1607.
- Certification: The appliance is certified to CEC and appears in CEC's most recent Modernized Appliance Efficiency Database System (MAEDbS) as required under section 1606.

(2) CEC's enforcement authority includes the removal of non-complying appliances from MAEDbS, as set forth in section 1608, and the issuance of administrative civil penalties under section 1609.

(3) RWC distributes several models of EZ-FLO brand plumbing fittings that it sells or offers for sale in California, either directly or through retailers or distributors.

(4) Certain RWC plumbing fittings are subject to the testing, efficiency, marking, and certification requirements for this appliance class as described in paragraph I(1) above.

(5) From February 2020 to February 2024, RWC sold or offered for sale in California through retailers or distributors showerheads, tub spout diverters, kitchen faucets, and lavatory faucets, that were not listed in MAEDbS as required in section 1606 and were not correctly marked as required in section 1607.

(6) Based on the above Recitals, CEC, through administrative adjudication, could impose penalties for each violation alleged, obtain injunctive relief to prohibit RWC from continuing to sell or offer for sale, non-compliant plumbing fittings in California, and take any other enforcement action as allowed by

law.

(7) Section 1609(b)(3) and California Public Resources Code section 25402.11(a)(2) identifies the following factors CEC shall consider when determining the amount of an administrative civil penalty:

- The nature and seriousness of the violation.
- The number of violations.
- The persistence of the violation arising from the course of conduct that is subject of the enforcement proceeding.
- The length of time over which the violation occurred.
- The willfulness of the violation.
- The violator's assets, liabilities, and net worth.
- The harm to consumers and to the state that resulted from the amount of energy wasted due to the violation.

(8) Penalties must be set at levels sufficient to deter violations. In developing this Agreement CEC considered the facts of the case and applied the above factors to determine an appropriate settlement. Further, in this case RWC cooperated with CEC in the investigation by promptly updating the marking on the units, testing and certifying the units, and by providing to CEC sales data of non-compliant units. The efforts by RWC saved CEC time and resources in investigating the violations and minimized the impacts on the competitive business environment in California, from the non-compliant units.

(9) RWC is willing to enter into this Agreement solely for the purpose of settlement and resolution of this matter with CEC. CEC accepts this Agreement in termination of this matter. Accordingly, the Parties agree to resolve this matter completely by means of this Agreement, without the need for administrative adjudication.
