Solano County Moratorium on NextEra BESS

There is currently a moratorium on BESS in Solano County while the County officials study the situation, to provide answers as to where BESS plants might be safely located. Meanwhile, this organization seems to be trying to make a run past our County officials to get the State to approve a dangerous location near a hospital, schools and housing. Please do not allow this to go forward. As a resident of Vacaville living less than 3 miles in an area that is often downwind of this planned BESS location, I am very concerned about the toxic hazard it would present to people and animals in the event of a fire, since fires are alarmingly common at BESS plants. I stand in opposition to this scheme. Thank you.
