Battery Storage Facility

Hello

Here are reasons that I oppose the battery storage Facility: 5 reasons to oppose;

Fire â€” as we know these are highly flammable & cannot be extinguished with water. The surrounding area will be cooled with waterâ€”OUR water that we pay for and not even recycled water!

Noise- the noise these emit is quite loud

No oversight- there are NO regulations for these facilities!!

Access, traffic, railroad- all of these would be disrupted by an access road they would need to build

Potential of terrorism- These are not American made batteries, coming from China?
