NO BATTERY

Please don't allow toxic battery corporations to destroy our health & environment!! Stop selling out our resources to corporations that care more about power & profits than about the environment & people's health!! Solar projects, wind mills, Nicola Tesla free energy types of cleaner forms of energy are a better focus on solutions if the city needs to bring power sources!! Please don't sell out!! Make the choices that will preserve the wellbeing we hope our grandchildren will someday have an opportunity for!!
