## **No to lithium storage in Solano County**

NO to lithium BESS Yes to safer options

As a resident of Vacaville near the Dixon/Vacaville substation for PG&E we are well versed in these big companies coming to our community and trying to put these safety hazards in our community. As a member of Keep Vacaville Safe we are not against green energy. We are against Lithium Ion storage. These facilities are ticking time bombs. Our county and city have imposed a moratorium on these types of facilities in order to ensure public safety. The simple fact that Next Era is now attempting to bypass our process, shows they DO NOT CARE about community safety.

Please support our local county and city representatives in their efforts to protect our community while exploring safer methods of green energy.

Thank you  
Kristine Sagan
