## **Lithium battery in vacaville**

- 1) This project site is on prime AG land. Once it's built, we can't get it back. Our AG land is valuable and disappearing.  
Â
- 2) There is no benefit to the community. The energy has been sold to the City of San Francisco. Solano County is inheriting the risk.  
Â
- 3) Costs of fire department's equipment and training will likely COST Solano money which will be passed to the taxpayer.  
Â
- 4) A lithium-ion fire at this facility would endanger our residents, first responders and our environment.
