Battery storage opposed

On behalf of myself and my family that live in the Browns Valley area.

We were opposed the last Battery storage facility that was voted against and the community came in the droves to rally against. I'm almost certain since this was last year this proposition would get the same response.

The reasons were of the concern of the research that was done on the hazardous fires that have melted down in other areas where these were granted permission to be running.

The 3 percent risk of exposure so close to proximity of to homes was of great concern to the residents of Vacaville and we voiced our opposition loud and clear
