NO on CorbyNextEra BESS project

As I have seen in the Solano County initial comments, "While these proposals may provide some community benefits, they do not reflect public input nor a balanced benefit between the local community and the applicant. The applicant did not hold any workshops or invite public feedback on their proposed community benefits plan." How is this possible for a project to be considered without due diligence to those most affected by this proposed location?? I vehemently ask that you STOP THIS BESS PROJECT before families in the area are detrimentally affected!! Thank you- Very concerned: Carina Brassfield
