Your incompetence has cost California 150 million

Your inability to apply for all the HEEHRA funding all at once to ensure California received its full amount allocated boggles the mind. Several states applied at for all of theirs with one request, but now California residents may never see the remaining \$150 million from the new Trump DOE. I cannot fathom your reason for doing it in phases and you do not have time to request public input. Submit the application for the remaining funds and hope the Biden DOE can approve the money before Trump takes office on January 21. Maybe you already have and this is a formality. I certainly hope so.
