NO on Battery Storage

This company has gone around local government to proceed with this project. The proximity to residential, commercial, open space (fire), the wildlife that use San Juan Creek and Interstate 5 are of great concern. I could list at least 20 more concerns and other factors that raise red flags but have limited space. The neighboring cities and their inhabitants oppose this facility.

I am from Monterey County and have a daughter in college at UCSC and have been following closely the fire at Moss Landing. The thought of that kind of disaster happening here scares me.

A company from Texas with no regard for local ordinances will not be a good neighbor. Please deny this project!
