NO NO NO to Lithium Battery Facility in San Juan Capistrano

I am a 30+ year resident of Laguna Niguel, wanting to voice my objection to the proposed Lithium Battery facility in the neighboring city of San Juan Capistrano. The proposed location is an obvious hazard to the health of families as well as property values. This is already a fire zone. Insurance companies are dropping fire coverage. Many homeowners cannot insure their homes. Just the idea of this type of facility is irresponsible and extremely dangerous.
