Stop the battery plant in San Juan Capistrano!

Hello,

I would like to petition against a battery plant being built in my hometown. It is an ecological nightmare waiting to happen, and should be moved somewhere far away from residents. I've seen the damage Tesla has done to Austin, TX, and the Moss Landing fire that is currently going on in California. I would hate to see the same thing happen to San Juan Capistrano. It is a town with tons of historic value, and building a structure like this would be devastating to the community. Please reconsider your decision to build in SJC.

Best,
Tori
