## **Placing residents in mortal danger**

Dear Commission

My family and I live in San Clemente but are also part of the San Juan communities. We oppose greatly having such a dangerous facility in our communities.

We respect the safety precautions Compass is looking to put in place, but nothing can be guaranteed ever. The small possibility of a leak, fire or accident is of a catastrophic nature.

California is such a large state with many low population areas. Such dangerous projects should be placed east of the 15 perhaps areas like Victorville. No vegetation to burn.

Thank you for the consideration

Aleks Zlatic
