## **Stop the San Juan Capistrano Lithium Battery Plant**

I am strongly opposed to the construction of the San Juan Capistrano lithium battery plant. This facility would pose a serious fire hazard, and an associated public health and safety threat, to those of us who work, go to high school (J. Serra HS) and own homes in close proximity to the proposed site. In the case of a fire, the surrounding extremely combustible vegetation, and the steep, cliff-like land topography, would result in a difficult to control disaster that would pose a serious threat to thousands of homes, to public health and safety, and could result in an extreme transportation disaster for those who travel on Camino Capistrano, and California Highway I-5 (the primary transportation corridor/artery connecting Los Angeles and Orange County to San Diego County). Please protect our community and the thousands who live here, STOP the San Juan Capistrano lithium battery plant! Sincerely, Christopher Katke
