## **What IRA rebate funds has California been paid in full**

Specifically I would like to know what IRA rebate funds has California been paid in full and what remains with Department of energy. We have \$152 million remaining from HERA (building electrification rebates, \$400 million from HOMES (energy efficiency upgrades.) This should not be kept from the public. Has California received those funds or are they now frozen with the new administrations' Department of Energy?

I concur:

Please update your Inflation Reduction Act website in reference to President Trump's "UNLEASHING AMERICAN ENERGY EXECUTIVE ORDER, January 20, 2025" and "MEMORANDUM TO THE HEADS OF DEPARTMENTS AND AGENCIES, M-25-11, January 21, 2025." Are the rebates, tax credits, and future programs going to be rescinded? The language of the Executive Order and Memorandum needs clarification as it pertains to California's implementation of the provisions of the Inflation Reduction Act. Please post this clarification today
