Appliance Efficiency Regulations for Water Closets

This proposal creates a conflict between building standards in Title 24 of the California Code of Regulations and proposed regulations in Title 20 of the California Code of Regulations, regarding dual-flush tank-type water closets. The Department of Housing and Community Development (HCD) recommends that the Title 20 Appliance Efficiency Regulations, sections 1601-1605.3, proposals be delayed until state agency coordination occurs. This will allow HCD to coordinate with the Commission, other state agencies, and assess conflicts with Title 20 proposals and the California Plumbing Code and California Green Building Standards Code.
