California Energy Commission
Docket Number 24-IEPR-01
715 P Street
Sacramento, CA 95814

RE: IEPR Commissioner Workshop on Regional Electricity Markets and Coordination

Pacific Gas and Electric Company (PG&E) appreciates the opportunity to comment on the IEPR Commissioner Workshop on Regional Electricity Markets and Coordination held by the California Energy Commission (CEC), the California Public Utilities Commission (CPUC), the California Independent System Operator (CAISO) and the California Air Resources Board (CARB) on January 24, 2025.

PG&E appreciates the leadership from the California State Agencies and the California Public Utilities Commission in hosting this workshop. PG&E also appreciates the efforts of the many stakeholders – state regulators and agencies across the West, union representatives, scientists, consumer advocates, utility managers, and all other representatives from the energy industry that have dedicated an enormous amount of time to the West-Wide Governance Pathways Initiative.

PG&E is encouraged by the findings of both the Brattle and the Stanford studies presented at the workshop. Their research and results support economic and reliability benefits that develop as the West moves toward a regional organization.

PG&E appreciates the opportunity to comment on this workshop and looks forward to continuing to collaborate with the CEC. Please reach out to me if you have any questions.

Sincerely,

Josh Harmon
State Agency Relations
