## **NO to the Lithium storage**

I STRONGLY oppose the reckless location selected for a lithium battery storage facility within such a densely residential area and in direct range of high risk fire zones. To build one in this area is a clear and present danger to thousands of households. It is utterly shocking that this is even being considered after the lithium storage facility fire in Moss Landing and the recent LA fires. To approve this sale would be a clear violation of the oaths of office, a massive failure on the state and county and a clear action of greed. Please put people first and shut this down.
