Executive Summary

Jacobs Engineering Group (Jacobs) was commissioned by Reclaimed Wind, LLC, to conduct a Phase I Environmental Site Assessment (ESA) for the Viracocha Hill Battery Energy Storage System Project (Viracocha Hill BESS or Project) in Alameda County, California. The proposed Project would be located on a 142-acre study area located in the Altamont Hills in eastern Alameda County. Jacobs conducted a reconnaissance of the Project site on December 9, 2024, following a document review. This assessment was conducted in general accordance with ASTM International (ASTM) Standard E 1527-21, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (the Practice) (ASTM 2021).

Site Description

The Project is located in a rural area of Alameda County, approximately 0.8 mile south of the Bethany Reservoir, 0.15 mile north of Altamont Pass Road, and 3.3 miles west of the city limits of Tracy. (Figure 1-1). The 142-acre property is located approximately 1.7 miles north of Altamont Pass Road as shown on Figure 1-1. The 142-acre site is currently owned by Ralph Properties II, A California Limited Partnership.

Summary of Findings

Recognized Environmental Conditions

No Recognized Environmental Conditions (RECs) were identified.

De Minimis Conditions

No de minimis conditions were identified.

Controlled Recognized Environmental Conditions

No controlled RECs were identified.

Historical Recognized Environmental Conditions

No historical RECs were identified.

Data Gaps and Deviations

According to § 3.2.20 of the Practice (2021), a data gap is a lack of or inability to obtain information required by the Practice, despite good faith efforts to gather the data. Data gaps may result from incompleteness in any of the activities required by the Practice. A data gap is considered significant if it affects the ability to identify RECs. Interview questionnaires were not completed by the landowner, which constitutes a data gap. However, the strength of the findings, opinions, or conclusions are not limited by the lack of interviews based on other supporting information provided the Environmental Data Resources (EDR) report and the available regulatory records from the State Water Resources Control Board GeoTracker website and the Department of Toxic Substances Control EnviroStor website.

1. Introduction

At the request of Reclaimed Wind, LLC, Jacobs Engineering Group (Jacobs) conducted a Phase I Environmental Site Assessment (ESA) of the easement for the Viracocha Hill Battery Energy Storage System Project (Viracocha Hill BESS or Project) in Alameda County, California. The proposed easement site includes a 142-acre study area (within Assessor Parcel Number [APN] 99B-7300-1-5) in Alameda County (Figure 1-1). This report presents the results of the ESA. The ESA consisted of a site reconnaissance, interviews, and review of readily available documents.

1.1 Purpose

The ESA was conducted in general accordance with the ASTM International (ASTM) Standard Practice for Environmental Site Assessments E-1527-21 (the Practice) (ASTM 2021). This ESA is designed to identify, to the extent feasible, Recognized Environmental Conditions (RECs), Historic Recognized Environmental Conditions (HRECs), or Controlled Recognized Environmental Conditions (CRECs). Identification of RECs was limited to what was readily visible during the site assessment fieldwork or what was included in the information that was obtained as part of the ESA records review. The Practice provides the following definitions:

A REC is defined in the Practice (2021) as:

- 1. The presence of hazardous substances or petroleum products in, on, or at the Project site due to a release to the environment.
- 2. Likely presence of hazardous substances or petroleum products in, on, or at the Project site due to a release or likely release to the environment.
- 3. The presence of hazardous substances or petroleum products in, on, or at the Project site under conditions that pose a material threat of a future release to the environment.
- A CREC is defined in the Practice as a REC affecting the site that has been addressed to the satisfaction
 of the applicable regulatory authority or authorities with hazardous substances or petroleum products
 allowed to remain in place subject to implementation of required controls (for example, activity and
 use limitations or other property use limitations).
- An HREC is defined in the Practice as a previous release of hazardous substances or petroleum
 products affecting the site that has been addressed to the satisfaction of the applicable regulatory
 authority or authorities and meeting unrestricted use criteria established by the applicable authority or
 authorities without subjecting the Site to any controls (for example, activity use limitations or other
 property use limitations).

These terms are not intended to include *de minimis* conditions related to a release that generally does not present a threat to human health or the environment and that generally would not be subject of an enforcement action if brought to the attention of appropriate government agencies. A condition determined to be a *de minimis* condition is not a REC nor a CREC.

1.2 Scope of Services

The goal of the ESA was to identify and document RECs associated with the Project site. This ESA report contains a qualitative assessment of likely and actual conditions at the site, based on readily available information and field observations.

250115150942 a280458d 1-1

In conducting the ESA, Jacobs used information obtained from the following sources:

- Documents readily available through public access venues, including information obtained from Environmental Data Resources (EDR), property tax records, historical aerial photographs, topographic maps, the California State Water Resources Control Board's (SWRCB's) GeoTracker website, the California Department of Toxic Substances Control (DTSC) EnviroStor website, the Alameda County Department of Environmental Health website, and U.S. Environmental Protection Agency (EPA) website.
- Site reconnaissance conducted on December 9, 2024.
- Interviews.

Jacobs conducted its study in a manner generally consistent with the Practice and generally accepted ESA practices, and believes the information contained in this report is true and correct, within the limitations and exceptions set out in Section 1.3. All findings, opinions, and conclusions stated in this report are based on facts and circumstances as they existed during the site visit, and, as such, they are not necessarily indicative of future conditions at the site.

1.2.1 Significant Assumptions

Significant assumptions made as part of identifying RECs based on the records review, site reconnaissance, and interviews are discussed in other sections of this report. Per the Practice, information collected from these sources was assumed to be correct and has not been independently verified by Jacobs, nor does Jacobs guarantee its completeness or accuracy.

1.3 Limitations and Exceptions

Pursuant to Section 13.1.5 of the Practice and the approved scope of work, this ESA does not include an analysis of the following additional issues:

- Asbestos-containing materials
- Radon
- Lead-based paint
- Lead in drinking water
- Wetlands
- Regulatory compliance
- Cultural and historic resources
- Industrial hygiene
- Health and safety
- Ecological resources
- Endangered species
- Indoor air quality
- Biological agents
- Mold
- High-voltage power lines
- Liabilities associated with the offsite management of solid or hazardous wastes originating from the site

Additionally, and in accordance with Section 7.4 of the Practice and the approved scope of work, Jacobs did not conduct any sampling, monitoring, analysis, geotechnical investigations, or quantitative evaluation of vapor migration, but relied upon reasonably ascertainable information provided by others. Jacobs assumes responsibility only for those conditions it was specifically authorized to investigate, as described herein.

250115150942 a280458d 1-2

1.4 Data Gaps and Deviations

A data gap is a lack of or inability to obtain information required by the Practice, despite good faith efforts to gather the data. Data gaps may result from incompleteness in any of the activities required by the Practice. A data gap is considered significant if it affects the ability to identify RECs. No significant data gaps were identified as part of this Phase I ESA.

1.5 Special Terms and Conditions

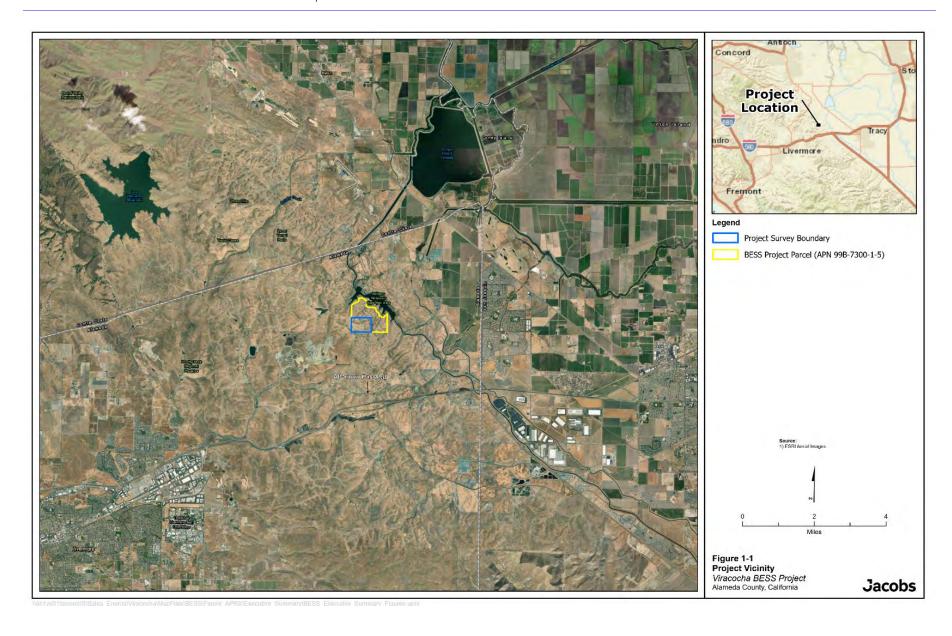

This report has been prepared based on the following terms and conditions:

- Jacobs services shall be governed by the negligence standard for professional services, measured as of the time these services were performed.
- Jacobs is not responsible for claims, damages, or liabilities associated with interpretation of these
 findings or reuse of the analysis, associated site data, or recommendations without the express written
 authorization of Jacobs. Limitations of this assessment may not be altered or waived without the
 written consent of Jacobs.
- Jacobs staff who performed this site assessment and report are not attorneys. This is a technical report
 and is not a legal representation or interpretation of any environmental law, rule, regulation, or policies
 of local, state, or federal governmental agencies.
- Any opinions or recommendations presented herein apply to site conditions existing when the services were performed. Jacobs is unable to report on or accurately predict events that may change the site conditions after the described services were performed, whether occurring naturally or caused by external forces. Additionally, Jacobs cannot provide any assurance as to the absence or presence of surface or subsurface contamination at the Site.
- In preparing this ESA report, Jacobs relied, in whole or in part, on data and information provided by Reclaimed Wind, LLC, and third parties, which information has not been independently verified by Jacobs, and which Jacobs has assumed to be accurate, complete, reliable, and current. Therefore, while Jacobs has used its best efforts in preparing this report, Jacobs does not warrant or guarantee the conclusions set forth in this report, which are dependent or based upon data, information, or statements supplied by third-parties or Reclaimed Wind, LLC.

1.6 Reliance Disclaimer

This report has been prepared for the exclusive use of Reclaimed Wind, LLC, for evaluating potential environmental liabilities associated with the site. No warranty, expressed or implied, is made. There are no beneficiaries of the work products other than Reclaimed Wind, LLC, and no other person or entity is entitled to rely upon the work products without the written consent of Jacobs and a written agreement limiting Jacobs' liability. Use of this report or any information contained herein, if by any party other than Reclaimed Wind, LLC, shall be at the sole risk of such party and shall constitute a release and agreement by such party to defend and indemnify Jacobs and its affiliates, officers, employees, and subcontractors from and against any liability for direct, indirect, incidental, consequential, or special loss or damage, or other liability of any nature arising from its use of the report or reliance upon any of its content. To the maximum extent permitted by law, such release from and indemnification against liability shall apply in contract, tort (including negligence), strict liability, or any other theory of liability.

250115150942_a280458d

2. Site Description

This section represents the site location and legal description, topography, land use, soil characteristics, and geological and hydrologic setting. The following sections discuss the current uses of the site and adjoining properties, including structures, utilities, and other features that pose relevance to this report.

2.1 Location and Site Features

The site is located in a rural area of Alameda County, California, approximately 10 miles northeast of the City of Livermore, California (Figure 1-1). The 142-acre study area is located approximately 1.7 miles of Altamont Pass Road as shown on Figure 2-1. The 142-acre study area is currently owned by Ralph Properties II, A California Limited Partnership.

2.2 Site Setting and General Vicinity Characteristics

Adjoining properties include undeveloped land, wind energy facilities, and ranching and agricultural land. The Altamont Landfill & Resource Recovery Facility, operated by Waste Management, is the adjacent property to the southwest. The landfill accepts municipal waste for disposal from Alameda and San Francisco counties and up to 25,000 tons annually of sludges, inert waste, and special waste from the other Bay Area counties.

2.2.1 Topography, Drainage, and Surface Water

The topography of the site was obtained from U.S. Geological Survey (USGS) topographic maps from EDR (2024c). The 142-acre study area is situated on sloping terrain that ranges in elevation from approximately 400 to 500 feet above mean sea level (amsl).

2.2.2 Physiography and Geology

The Project site is located in between the San Joaquin Valley Tracy Subbasin and Livermore Valley Groundwater Basin (Department of Water Resources 2006). The geology in the area is characterized by the Tulare formation from the Miocene to Pleistocene and Jurassic to Cretaceous (California Department of Transportation 2024). The Tulare Formation of Pliocene and Pleistocene age underlies the entire western side of the San Joaquin Valley. The Tulare Formation overlies the San Pablo Group of Miocene age, which comprises the uppermost beds of the unit described as sedimentary and crystalline rocks. The Tulare is generally coarser grained than underlying material. Diablo Range sedimentary material, derived from the Franciscan Formation and Cretaceous and Tertiary sedimentary rocks, is interbedded with micaceous, arkosic, and Sierra deposits, and has been deposited in oxidizing, subareal, and reducing subaqueous environments. Oxidized deposits are typically tan, yellow-brown, and olive-brown in color and reduced deposits are greenish-gray to dark brownish-gray (USGS 1971). The Diablo Range Unit of the Tracy-Dos Palos area consists of the ridges and foothills of the Diablo Range parallel to the axis of the San Joaquin Valley. The alluvial fans and plains unit comprises most of this region. Pre-Pliocene sedimentary rocks overlie the basement complex and crop out along the western margin of the San Joaquin Valley and underlie the region. According to aerial imagery and USGS topographic maps, the Project site is composed of sloping terrain, in which the center/western portion rolls west then north toward the southwest of Bethany Reservoir. No aquatic features are present at the site. According to Web Soil Survey, soils at the site are made up from Altamont rocky clay, 7 to 30 percent slopes, and San Ysidro loam, 0 to 2 percent slopes (USDA 2024).

250115150942_a280458d 2-1

2.2.3 Hydrogeology

According to the EDR report, the center of the site is at an elevation of approximately 400 feet amsl (EDR 2024c) and lies within the Sacramento-San Joaquin Delta Watershed. No streams or wetlands on the site are shown on the USGS topographic maps. One unnamed tributary is located north of the site. Bethany Reservoir is located approximately 0.4 mile to the north. Depth to groundwater on the site is unknown. A search of well logs was provided by EDR. Groundwater flow may travel to the northeast, toward the confluence of Bethany Reservoir.

2.2.4 Climate

The climate of the site in the winter varies but generally consists of cool sunny days with cool nights. Temperatures in the winter in nearby Livermore, 10 miles to the southwest, typically average 58 degrees Fahrenheit (°F) by midday. Average temperatures during December are 14.5°F and 54.9°F (Weather-US.com 2024).

2.3 Historical and Current use of the Site

The 142-acre study area is undeveloped and has historically been used for cattle ranching.

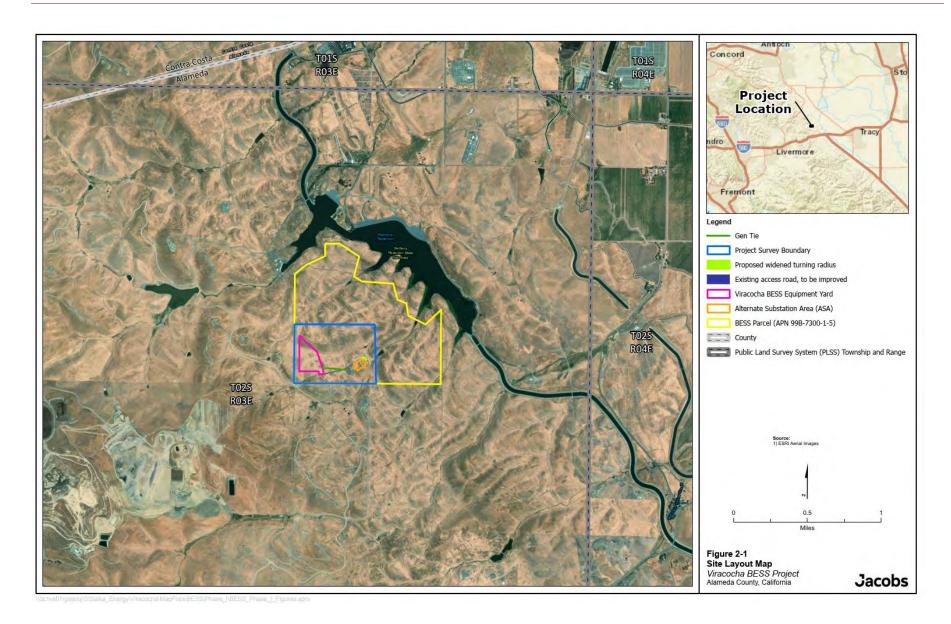

2.3.1 Adjoining Properties

Table 2-1 describes the current uses of the adjoining properties.

Table 2-1. Current Uses of Adjoining Properties

Direction	Current Use
North	Ranch/prairie land followed by Bethany Reservoir State Recreation Area.
East	Ranch/prairie land.
South	Ranch/prairie land. The Altamont Landfill is located to the southwest. Wind turbines and a substation are also located to the south.
West	Wind turbines are located to the west. The Altamont Landfill is located to the southwest.

250115150942_a280458d 2-2

250115150942_a280458d

3. Owner-/User-Provided Information

This section outlines the owner- and user-provided information used in this report.

3.1 Title Records

The title search for APN 99B-7300-1-5 indicates that the property is owned by Ralph Properties, II, a California limited partnership. Easements for this parcel are listed for Pacific Gas and Electric Company and Tidewater Oil Company (Fidelity, 2023). Appendix C provides a copy of the Title Report.

3.2 Specialized Knowledge

Jacobs was not provided with any specialized knowledge or reports regarding the site by Reclaimed Wind, LLC.

3.3 Valuation Reduction for Environmental Issues

By agreement with Reclaimed Wind, LLC, no valuation reduction information has been provided to or acquired by Jacobs for this Phase I ESA.

3.4 Owner, Site Manager, and Occupant Information

The 142-acre study area is currently owned by Ralph Properties II, A California Limited Partnership.

250115150942_a280458d 3-1

4. Records Review

This section outlines the records review process.

4.1 Environmental Record Sources

Jacobs contracted with EDR to review available regulatory agency databases for properties within the various ASTM-prescribed radii of the Project site. The specific radii are identified according to sources in the complete database searches for the 142-acre study area, are provided in Appendix A (EDR 2024a). Appendix A summarizes the databases searched to identify generators and transporters of hazardous wastes, hazardous waste treatment, storage, and disposal facilities, and sites where releases of hazardous materials were identified.

Table 4-1 lists the number of sites by regulatory database within the prescribed approximate minimum search distance (ASMD) appearing in the regulatory data report.

4.1.1 Description of EDR Sites

According to the EDR report, no sites were identified as being located on or adjacent to the 142-acre study area.

4.1.2 State Water Resources Control Board

Jacobs reviewed available online records through the State Water Resources Control Board (SWRCB) GeoTracker online application website (http://geotracker.waterboards.ca.gov/) to investigate possible records of contaminated sites within approximately 1 mile of the Project site. Based on this review, there were two facilities identified that are further described in the following sections. The locations of these two facilities are shown on Figure 4-1.

4.1.2.1 Title 27 Surface Impoundment, Altamont Solidification Facility.

The Altamont Solidification Facility is associated with the Altamont Landfill and Resource Recovery Facility located at 10840 Altamont Pass Road in Livermore. This facility is located approximately 0.4 mile southwest of the site. The solidification facility is designed to receive Class II liquid waste, which is then solidified prior to direct disposal at the landfill or used as alternative daily cover at the landfill. This facility was designed and operates following a detection monitoring program in accordance with the Central Valley Regional Water Quality Control Board (CVRWQCB) Waste Discharge Requirements (Geosyntec 2024). There are no reported releases from this facility to the soil or groundwater. Based on this information, the potential for the Altamont Solidification Facility to impact the 142-acre study area is considered low.

4.1.2.2 Cleanup Program Site, FloWind Wind Park

The FloWind Wind Park is located approximately 1.2 miles south of the Project site at 12050 Altamont Pass Road, Tracy, California. Information from the GeoTracker website indicates that in March 1996 a release of approximately 100 to 150 gallons of diesel fuel occurred on the FloWind Wind Park facility. It

250115150942 a280458d 4-3

was reported that 50 gallons were recovered and that the diesel contaminated soil was characterized and removed. There is no further information available to confirm this according to the CVRWQCB. The CVRWQCB stated in an April 2016 Case Review File that because the release occurred in 1996, it is likely that degradation has occurred over time that has minimized the threat to human health and the environment. As such, the CVWQCB indicated no further action is required for the release that occurred at the FloWind Wind Park (CVRWQCB 2016). Based on this information, the potential for the release site at the FloWind Wind Park to impact the 142-acre study area is considered low.

4.1.2.3 Orphan Summary Facilities

No orphan sites were identified in the EDR reports for the 142-acre study area.

4.2 Historical Use Information of Site and Adjacent Properties

Jacobs performed a review of historical aerial photographs and USGS topographical maps, provided by EDR, to obtain historical use information for the Project site and adjacent properties. Appendix A provides the search results and associated documentation.

4.2.1 Aerial Photographs

Aerial photographs provided by EDR covered the 142-acre study area for the years 1939, 1940, 1949, 1950, 1959, 1963, 1966, 1979, 1982, 1993, 1998, 2006, 2009, 2012, 2016, and 2020 (EDR 2024b). The aerial photographs show the following:

- 1939 to 1982: The site is ranch and prairie land with no apparent structures or operations. Several dirt roads are present in the area starting in 1940. The transmission line towers are present starting in 1959.
- 1993: A structure has been constructed on the southeastern portion of the Site. This structure is presumably the Waste Management Ralph Substation. One additional road has been added southwest of the site connecting the substation to the existing unpaved roads. Wind turbines and related structures are present in the vicinity of the site.
- 1998-2020. The area has remained largely unchanged.

4.2.2 Topographic Maps

EDR conducted a search for current and historical topographic maps for the 142-acre study area (EDR, 2024c). Topographic maps depict cultural and natural surface features and elevation contours. Topographic maps were provided for the years 1911, 1916, 1940, 1942, 1943, 1952, 1953,1968, 1978, 1980, 1981, 2012, 2015, 2018, and 2021. The topographic maps show the following:

- 1911 and 1916: The topographic maps do not cover the site.
- 1940 and 1943: The topographic maps show the area as undeveloped with gently sloping terrain. Dirt roads are present in the vicinity of the site.
- 1952 and 1953: A transmission line has been constructed and is shown to the east of the site. The other features shown on the topographic maps remain similar.
- 1968, 1978, 1980, and 1981: An underground pipeline has been constructed traversing the 142-acre study area diagonally from the northwest to the southeast corner. The other features shown on the topographic maps remain similar.

250115150942_a280458d 4-4

 2012, 2015, 2018, and 2021: The topographic maps no longer show the locations of features such as transmission lines or pipelines (although they are still present). The other features shown on the topographic maps remain similar.

4.2.3 Sanborn Maps

EDR conducted a search for current and historical Sanborn Maps for the site (EDR 2024d). According to the EDR report, fire insurance maps covering the 142-acre study area were not found.

4.2.4 City Directory

A city directory search was completed by EDR for the 142-acre study area (EDR 2024e). The information provided by EDR indicated that there are no listed cross streets in the vicinity of the site.

4.2.5 Environmental Liens or Activity and Use Limitations

An Activity of Use Limitation (AUL) and Lien Search completed by EDR for the 142-acre Study Area identified no AULs or liens (EDR 2024f).

4.2.6 Review of Division of Oil, Gas, and Geothermal Resources Files

Oil and gas wells were not observed on the 142-acre study area during reconnaissance. A review of the California Division of Oil, Gas, and Geothermal Resources website for oil and gas fields in California (2024) indicated that there are no extraction or production wells located on or in the vicinity of the 142-acre study area.

4.2.7 National Pipeline Mapping System

Jacobs reviewed the National Pipeline Mapping System public viewer website for gas transmission pipelines and hazardous liquid trunk lines on or close to the 142-acre study area(NPMS 2024). According to the information reviewed, there is one petroleum pipeline that traverses through the site from the northwest to the southeast. No releases were identified in the EDR report associated with this pipeline, which is operated by Crimson Pipeline L.P.

4.3 Vapor Encroachment Screening

ASTM Standard E2600-22 Standard Guide for Vapor Encroachment Screening (VES) on Property Involved in Real Estate Transactions (2022) was used as guidance for conducting a VES for the site. The purpose of the screening is to determine whether a Vapor Encroachment Condition (VEC) exists from contaminants of concern that may migrate as vapors onto a property as a result of contaminated soil and groundwater on or near the Site.

Soil vapor is one of the pathways of contamination to the site, along with groundwater and soil. The Practice requires that vapor migration be treated no differently than contaminated groundwater. The soil-vapor contaminant pathway needs to be considered in evaluation of RECs or other environmental concerns. The estimated groundwater flow direction is to the north.

In accordance with ASTM E2600-22 (Tier 1) (2022), there are no potential petroleum hydrocarbon sources for vapor intrusion within 1/10 mile of the 142-acre study area or volatile organic compound (VOC) sources within 1/3 mile of the 142-acre study area. Based on this information, there were no properties identified with the potential to cause a VEC at the Site.

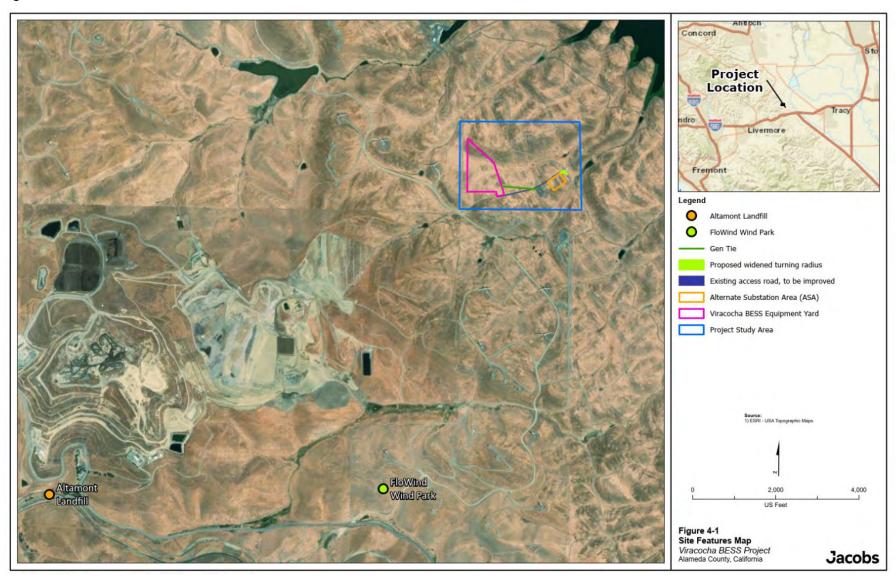

250115150942 a280458d 4-5

4.4 Historical Assessments

There were no historical assessments provided by Reclaimed Wind, LLC, or available from the SWRCB's GeoTracker website, the DTSC's EnviroStor website, or the Alameda Department of Environmental Health Department website for the 142-acre study area.

250115150942_a280458d 4-6

Figure 4-1. Site Features

250115150942_a280458d 4-7

5. Site Reconnaissance

This section summarizes the site reconnaissance process.

5.1 Methodology and Limiting Conditions

This report is based in part on observations made by Jacobs during a site visit conducted on December 9, 2024, to visually survey the 142-acre study area. During the site visit, the weather was sunny. Appendix B provides photographs from the site reconnaissance.

5.2 General Site Setting

This section outlines the general site setting.

5.2.1 Site Description

The Project site is characterized as undeveloped with access provided by Altamont Pass Road to the south. The 142-acre study area is currently used for cattle ranching, and a fenced property includes the Ralph Substation.

The site is located in hilly terrain with unpaved roads that provide access through the 142-acre study area. There are large boulders noted throughout the 142-acre study area. There were a few instances where discarded trash, likely blown over from the neighboring landfill, were observed in areas of the site.

The majority of the site was covered with dry grass, low vegetation, and brush. Human-made structures noted on the 142-acre study area included the Waste Management Ralph Substation, transmission towers traversing diagonally and wind turbines on the western border. The substation showed no signs of staining or releases on the ground. The ground was covered in gravel and dry grass. At the time of the inspection, no access to the substation or the interiors of the enclosures inside the substation was provided. The fence was located along the western and southern edges of the 142-acre study area.

5.2.2 Storm Sewers

No storm sewers were observed.

5.2.3 Water Resources

No groundwater wells were observed.

5.2.4 Transformers and PCB-Containing Equipment

No pole-mounted transformers were observed.

5.2.5 Underground Storage Tanks

No underground storage tanks (USTs) were observed.

5.2.6 Aboveground Storage Tanks

No ASTs were observed within the site.

250115150942_a280458d 5-1

5.2.7 Hazardous Material Storage and Waste Areas

No hazardous material or waste storage areas were observed.

5.2.8 Stressed Vegetation

At the time of site reconnaissance, the vegetation along the buried petroleum pipeline pathway that traverses the site from northwest to southeast appeared to have tire tracks and/or a stressed vegetation appearance.

5.2.9 Site Access, Fencing, Security

An unpaved road that connected to the gated entrance at Altamont Pass Road approximately 1.75 miles south of the site provided access to the 142-acre study area. The unpaved road proceeded generally north from Altamont Pass Road and across the southeastern portion of the southeastern adjacent property to the 142-acre study area. A fenced property along the southeastern portion of the site includes the Ralph Substation.

5.2.10 Other Environmental Considerations

No other environmental considerations were observed.

250115150942_a280458d 5-2

6. Interviews

This section summarizes the interviews conducted during this effort.

6.1 Interview with Site Personnel/Owner

No interview questionnaires were completed by the landowner, which constitutes a data gap. However, the strength of the findings, opinions, or conclusions are not limited by the lack of interviews based on other supporting information from the EDR report, and the available regulatory records from the SWRCB GeoTracker website.

6.2 Interview with State and Local Government Officials

By agreement with Reclaimed Wind, LLC, an interview with state and local government officials was not conducted.

250115150942_a280458d 6-1

7. Environmental Site Assessment Findings

The findings, opinions, and conclusions regarding known or suspected RECs, HRECs, CRECs, and *de minimis* conditions identified on the property are based on the records review, regulatory database search, site reconnaissance, and interviews conducted during the preparation of this Phase I ESA.

7.1 Recognized Environmental Conditions

A REC is defined in the Practice as:

- 1. The presence of hazardous substances or petroleum products in, on, or at the site due to a release to the environment.
- 2. Likely presence of hazardous substances or petroleum products in, on, or at the site due to a release or likely release to the environment.
- 3. The presence of hazardous substances or petroleum products in, on, or at the site under conditions that pose a material threat of a future release to the environment.

The term is not intended to include *de minimis* conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be subject to enforcement action if brought to the attention of the appropriate government agencies. According to these guidelines, no RECs were identified during this review.

7.2 Controlled Recognized Environmental Conditions

A CREC is defined in the Practice as a REC affecting the site that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations). According to this definition, no controlled RECs were identified during this review.

7.3 Historical Recognized Environmental Conditions

A HREC is defined in the Practice as a previous release of hazardous substances or petroleum products affecting the site that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable authority or authorities without subjecting the Site to any controls (for example, activity use limitations or other property use limitations). According to this definition, no historical RECs were identified during this review.

7.4 De Minimis Conditions

De minimis is clarified in the Practice as related to a release that generally does not present a threat to human health or the environment and that generally would not be subject of an enforcement action if brought to the attention of appropriate government agencies. A condition determined to be a de minimis condition is neither a REC nor a CREC. According to these guidelines, no de minimis conditions were identified during this review.

250115150942_a280458d 7-1

7.5 Data Gaps and Deviations

According to § 3.2.20 of the Practice, a data gap is a lack of or inability to obtain information required by the Practice despite good faith efforts to gather the data. Data gaps can result from incompleteness in any of the activities required by the Practice. A data gap is considered significant only if it affects the ability to identify RECs. Interview questionnaires are pending completion by the landowner, which constitutes a data gap. However, the strength of the findings, opinions, or conclusions are not limited by the lack of interviews based on other supporting information provided in the EDR report and the available regulatory records from the SWRCB GeoTracker website and the DTSC EnviroStor website.

8. Environmental Professional Statement

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in of the *Code of Federal Regulations Title* 40, Part 312, §312.10 (40 CFR 312, §312.10).

We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Site. We have developed and performed all appropriate inquiries in general conformance with the standards and practices set forth in 40 CFR 312, and the limitations of the client scope of work and limitations and data gaps listed in this report.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation
and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database
includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste
as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate
less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS PROJECT: NORTHEASTERN UNIVERSITY PFAS PROJECT

The PFAS Contamination Site Tracker records qualitative and quantitative data from each site in a chart, specifically examining discovery, contamination levels, government response, litigation, health impacts, media coverage, and community characteristics. All data presented in the chart were extracted from government websites, such as state health departments or the Environmental Protection Agency, and news articles.

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

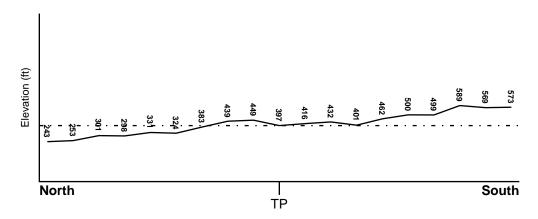

TOPOGRAPHIC INFORMATION

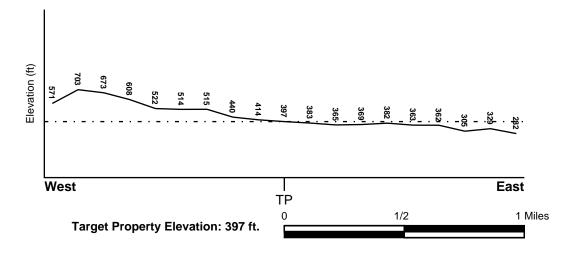

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General East

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Additional Panels in search area: FEMA Source Type

06013C0525F FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property Data Coverage

CLIFTON COURT FOREBAY YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius: 1.25 miles Status: Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

LOCATION GENERAL DIRECTION

MAP ID FROM TP GROUNDWATER FLOW

Not Reported

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Altamont

Soil Surface Texture: clay

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high

water table, or are shallow to an impervious layer.

Soil Drainage Class: Well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic	
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	conductivity micro m/sec	
1	0 inches	20 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0 Min: 0	Max: Min:
2	20 inches	27 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0 Min: 0	Max: Min:
3	27 inches	31 inches	weathered bedrock	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0 Min: 0	Max: Min:

Soil Map ID: 2

Soil Component Name: San Ysidro

Soil Surface Texture: loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high

water table, or are shallow to an impervious layer.

Soil Drainage Class: Moderately well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic	
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	conductivity micro m/sec	
1	0 inches	16 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 1.4 Min: 0.42	Max: 8.4 Min: 7.8
2	16 inches	33 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 1.4 Min: 0.42	Max: 8.4 Min: 7.8
3	33 inches	59 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 1.4 Min: 0.42	Max: 8.4 Min: 7.8

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing

Department of Conservation Telephone: 916-445-9686

Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Jacobs were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

EDR Environmental Lien and AUL Search

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations (AULs), such as engineering controls and institutional controls.

Anetwork of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel number and/or legal description
- search for ownership information
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.
- search for publicly available environmental encumbering instrument(s) filed on or after the recording
 of the current deed; between the recording of the current deed and the most current publicly available
 date
- provide a copy of any environmental encumbrance(s)
- provide a copy of the current deed when available

Thank you for your business.

Please contact EDR at 1-800-352-0050 with any questions or comments.

EXHIBIT "A"

All that certain real property situate in the township of Murray,, an unincorporated area, County of Alameda, State of California, described as follows:

PARCEL ONE

Section 11 in Township 2 South, Range 3 East, Mount Diablo Base and Meridian.

Excepting therefrom that portion thereof condemned in the Pinal Order of the Superior Court of Alameda County, No. 301379, recorded April 20, 1961 on Reel 356 at Image 4, Official Records of Alameda County, and described as follows:

That portion of Section 11, Township 2 South, Range 3 East M.D.M., more particularly described as follows:

Beginning at the northeast corner of said Section 11 (The California State Zone III coordinates for said point of beginning are x = 1,000,971.50 and Y = 407.992.79, and the North Meridian used as a basis for bearings in this description is identical with that of said Zone); thence from said point of beginning along the east line of said Section 11, south 00° 43′ 58″ west 2495.22 feet to the east quarter corner of said Section 11; thence south 48° 03′ 10″ west 954.14 feet; north 62° 54′ 16″ west 483.01 feet; north US 14′ 47″ west 697.21 feet; north 67° 53′ 26″ west 345.40 feet; north 13° 48′ 27″ west 607.55 feet; north 85° 28′ 00″ west 1138.56 feet; north 55° 21′ 33″ west 334.25 feet; north 15° 09′ 15″ east 745.94 feet; north 56° 29′ 48″ west 851.47 feet; west 499.38 feet; south 00° 36′ 30″ west 435.00 feet; south 66° 03′ 39″ west 751.66 feet; south 51° 21′ 05″ west 513.67 feet to the west line of said Section 11; thence along said west line north 00° 20′ 28″ east 1233.16 feet to the northwest corner of said Section 11; thence along the north line of said Section 11, south 87° 55′ 20″ east 2624.82 feet to the north Quarter corner of said Section 11; thence continuing along said north line of Section 11, south 89° 01′ 52″ east 2623.70 feet to the point of beginning.

PARCEL TWO

That portion of the southeast Quarter of Section 11, Township 2 south, Range 3 east, M.D.M., lying within the following described boundaries: Beginning at a point from which the northeast corner of said southeast quarter bears north of 48° 03' 16" east 954.14 feet, said point having coordinates Y = 464,860.00 and X = 1,680,230.00; thence from said point of beginning north 62° 54' 16" west 483.01 feet; thence north 08° 14' 47" west 250.41 feet to a 3/4-inch iron pipe with brass plug marked DLV-181A; thence south 62° 54' 16" east 706.10 feet to a 3/4-inch iron pipe with brass plug marked DLV-179A; thence south 48° 03' 16" west 218.82 feet to the point of beginning.

Excepting from said Parcel One and Two:

All mineral lands, (except iron land), as reserved in the Patent from the United States of America, to Western Pacific Railroad Company, dated May 31, 1870 and recorded December 13, 1870 in Liber "A" of Patents, at page 433.

AMENDED PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, Fidelity National Title Company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Fidelity National Title Insurance Company, a Florida Corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

AMENDED PRELIMINARY REPORT

EFFECTIVE DATE: October 16, 2023 at 7:30 a.m., Amended: December 1, 2023, Amendment

No. A

ORDER NO.: 991-30095439-A-ML6

The form of policy or policies of title insurance contemplated by this report is:

ALTA Extended Owner's Policy (7-1-21)

1. THE ESTATE OR INTEREST IN THE LAND HEREINAFTER DESCRIBED OR REFERRED TO COVERED BY THIS REPORT IS:

A Fee

2. TITLE TO SAID ESTATE OR INTEREST AT THE DATE HEREOF IS VESTED IN:

Ralph Properties, II, a California limited partnership

3. THE LAND REFERRED TO IN THIS REPORT IS DESCRIBED AS FOLLOWS:

See Exhibit A attached hereto and made a part hereof.

EXHIBIT A LEGAL DESCRIPTION

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE UNINCORPORATED AREA IN THE COUNTY OF ALAMEDA, STATE OF CALIFORNIA, AND IS DESCRIBED AS FOLLOWS:

PARCEL ONE:

Section 11 in Township 2 South, range 3 East, Mount Diablo Base and Meridian.

Excepting therefrom that portion thereof condemned in the Final Order of the Superior Court of Alameda County No. 301379, recorded April 26, 1969 on Reel 356 at Image 4, Official Records of Alameda County, and described as follows:

That portion of Section II, Township 2 South, range 3 East M.D.M., more particularly described as follows:

Beginning at the Northeast corner of said Section II (The California State Zone III coordinates for said point of beginning are X=1,680,971.58 and Y=467,992.79 and the North meridian used as basis for bearings in this description is identical with that of said zone); thence from said point of beginning along the East line of said Section II, South 00° 43′ 58″ West 2495.22 feet to the East quarter corner of said Section 11; thence South 48° 03′ 16″ West 954.14 feet; North 62° 54′ 16″ West 483.01 feet; North 08° 14′ 47″ West 697.21 feet; North 07° 53′ 26″ West 345.40 feet; North 13° 48′ 27″ West 607.56 feet; North 85° 28′ 00″ West 1138.56 feet; North 55° 21′ 33″ West 334.25 feet; North 15° 09′ 15″ East 745.94 feet; North 56° 29′ 48″ West 851.47 feet; West 499.38 feet; South 00° 36′ 30″ West 435.00 feet; South 66° 03′ 39″ West 751.66 feet; South 51° 21′ 05″ West 513.67 feet to the West line of said Section 11; thence along said West line North 00° 20′ 28″ East 1233.16 feet to the Northwest corner of said Section 11; thence along the North line of said Section 11, South 87° 55′ 20″ East 2624.82 feet to the North quarter corner of said Section 11; thence continuing along said North line of Section 11, South 89° 01′ 52″ East 2623.70 feet to the point of beginning.

PARCEL TWO:

That portion of the Southeast quarter of Section 11, Township 2 South, range 3 East, M.D.M., according to the official plat thereof, lying within the following described boundaries:

Beginning at a point from which the Northeast corner of said Southeast quarter bears North 48° 03' 16" East 954.14 feet, said point having coordinates Y=464,860.00 and X-1,680,230.00; thence from said point of beginning North 62° 54' 16" West 483.01 feet; thence North 08° 14' 47" West 250.41 feet to a 3/4 inch iron pipe with brass plug marked DLV-181A; thence South 62° 54' 16" East 700.10 feet to a 3/4 inch iron pipe with brass plug marked DLV-179A; thence South 48° 03' 16" West 218.82 feet to the point of beginning.

Fidelity National Title Company

EXCEPTIONS (Continued)

18. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the limited partnership named below:

Name: Ralph Properties, II, a California limited partnership

- a) A complete copy of the limited partnership agreement and all amendments thereto.
- Satisfactory evidence that the partnership was validly formed and is in good standing.

The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

19. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

Party(s): Ralph Properties, II, a California limited partnership

The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

20. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

21. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department. The Company reserves the right to add additional items or make further requirements after such review.

END OF EXCEPTIONS

Fidelity National Title Company

NOTES

1. Note: The name(s) of the proposed insured(s) furnished with this application for title insurance is/are:

No names were furnished with the application. Please provide the name(s) of the buyers as soon as possible.

- 2. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.
- 3. Note: Property taxes for the fiscal year shown below are PAID. For proration purposes the amounts were:

Tax Identification No.: 099B-7300-001-05

Fiscal Year: 2023-2024

1st Installment: \$1,634.48

2nd Installment: \$1,634.48

Land: \$292,217.00

Code Area: 70-000

Bill No.: 29202500

- 4. Note: The charge for a policy of title insurance, when issued through this title order, will be based on the Basic Title Insurance Rate.
- 5. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.
- 6. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.
- 7. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.
- 8. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of a Company agent, an authorized employee of the insured lender, or by using Bancserv or other Company-approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.
- 9. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

NOTES (Continued)

- 10. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.
- 11. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

END OF NOTES

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- ALWAYS VERIFY wire instructions, specifically the ABA routing number and account number, by calling the party
 who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions,
 use phone numbers you have called before or can otherwise verify. Obtain the phone number of relevant
 parties to the transaction as soon as an escrow account is opened. DO NOT send an email to verify as the
 email address may be incorrect or the email may be intercepted by the fraudster.
- USE COMPLEX EMAIL PASSWORDS that employ a combination of mixed case, numbers, and symbols. Make
 your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same
 password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

Federal Bureau of Investigation: http://www.fbi.gov

Internet Crime Complaint Center: http://www.ic3.gov

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

Available Discounts

DISASTER LOANS (CTIC, CLTIC, FNTIC)

The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within twenty-four (24) months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be fifty percent (50%) of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC, FNTIC)

On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be fifty percent (50%) to seventy percent (70%) of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be forty (40%) to fifty percent (50%) of the appropriate title insurance rate, depending on the type of coverage selected.

FIDELITY NATIONAL FINANCIAL, INC. PRIVACY NOTICE

Effective August 1, 2021

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (e.g., name, address, phone number, email address);
- demographic information (e.g., date of birth, gender, marital status);
- identity information (e.g. Social Security Number, driver's license, passport, or other government ID number);
- financial account information (e.g. loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent:
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type:
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

<u>Cookies</u>. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

<u>Web Beacons</u>. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

<u>Links to Other Sites</u>. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;

- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law. We may share your Personal Information with affiliates (other companies owned by FNF) to directly market to you. Please see "Choices with Your Information" to learn how to restrict that sharing.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

If you do not want FNF to share your information among our affiliates to directly market to you, you may send an "opt out" request as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you without your consent.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

<u>For California Residents</u>: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

<u>For Nevada Residents</u>: You may be placed on our internal Do Not Call List by calling (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.

<u>For Oregon Residents</u>: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

<u>For Vermont Residents</u>: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do <u>not</u> collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions, would like to correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, visit FNF's Opt Out Page or contact us by phone at (888) 714-2710 or by mail to:

Fidelity National Financial, Inc. 601 Riverside Avenue, Jacksonville, Florida 32204 Attn: Chief Privacy Officer

ATTACHMENT ONE (Revised 05-06-16)

CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
 - (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- 2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
- 3. Defects, liens, encumbrances, adverse claims or other matters:
 - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
 - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
 - (c) resulting in no loss or damage to the insured claimant;
 - (d) attaching or created subsequent to Date of Policy; or
 - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
- 4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
- 5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
- 6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

- 1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
 - Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
- Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
- 4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
- 6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13) ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

- 1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - a. building;
 - b. zoning;
 - c. land use;
 - d. improvements on the Land;
 - e. land division; and
 - f. environmental protection.
 - This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
- 2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
- 3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
- 4. Risks:
 - a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;

Attachment One – CA (Rev. 05-06-16)

Page 1

- that result in no loss to You; or
- d. that first occur after the Policy Date this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
- Failure to pay value for Your Title.
- 6. Lack of a right:
 - a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
 - b. in streets, alleys, or waterways that touch the Land.
 - This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
- 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
- 8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
- 9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

• For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A. The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less)	\$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less)	\$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less)	\$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less)	\$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 - or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
 - (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
- 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
- 6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
- Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

{Except as provided in Schedule B - Part II,{ t{or T}his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

Attachment One - CA (Rev. 05-06-16)

Page 2

{PART I

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

- 1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
- 6. Any lien or right to a lien for services, labor or material not shown by the Public Records.}

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:}

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 - or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
 - b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
- 4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
 - (a) a fraudulent conveyance or fraudulent transfer; or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
- 5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of: {The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

- (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real
 property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings,
 whether or not shown by the records of such agency or by the Public Records.
- Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that
 may be asserted by persons in possession of the Land.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
- 6. Any lien or right to a lien for services, labor or material not shown by the Public Records, }
- 7. {Variable exceptions such as taxes, easements, CC&R's, etc. shown here.}

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY - ASSESSMENTS PRIORITY (04-02-15)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 - or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
 - (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
- Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
- 6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
- 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
- 8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
- Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer. or
 - (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
- 10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
- 11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.
