Tribal lands

This is all our people have left is tribal lands. You have taken everything our children, our wives, our husbands, our land you've broken treaties & promises many times. It is obvious that you've inherited your ancestors traits, this we believe is your curse the greed, murder, the taking of land ,enslavement, genocide, when will your kind be tired of being the devil's right hand , what do you want your children to remember about you, because we will tell ours the truths always and in every story the bad guy is the same color.
