**Notice of Receipt of a Partial Opt-in Certification Program Application for the
Viracocha Hill Battery Energy Storage System Project (25-OPT-01)**

Dear Todd Hopper:

The California Energy Commission (CEC) hereby acknowledges receipt of Reclaimed Wind LLC's partial application for the Viracocha Hill Battery Energy Storage System Project for certification under the Opt-In Certification Program.

Our initial review of the application demonstrates that it does not comply with Public Resources Code, section 25545.2 as it does not contain all required technical sections. Section 25545.2 states that the application "shall be in a form prescribed by the commission and contain all the information required by section 25520..." This information is necessary for CEC to prepare an environmental impact report.

When Reclaimed Wind LLC submits all application materials as required by law, the CEC will begin its 30-day completeness review in accordance with Public Resources Code, section 25545.4.

If you have questions, please email Eric Knight, Siting and Environmental Branch Manager, at eric.knight@energy.ca.gov.

Sincerely,

Elizabeth Huber
Director
Siting, Transmission, and Environmental
Protection Division
