Opposition to the BBES Project

I hope this message finds you well. I am writing to express my deep concern related to the CESP and BBES projects, which pose a considerable risk to our homes in Laguna Niguel. I wish to convey my strong opposition to these projects.

The recent Palisades fires have underscored the potential devastation a lithium fire could inflict upon our community. In addition to the fire risk, the mere presence of such a site threatens to decrease property values and drive up insurance costs for residents.

I respectfully urge you fight against the establishment of the BBES or any lithium battery storage project in close proximity to our homes. Our community's safety and well-being must remain a priority.

Thank you for your attention to this critical issue.

Best regards,

William Glass
