Dear Ms. Huber and Ms. Longman:

We are writing on behalf of California Unions for Reliable Energy to support the SVY03A Data Center Campus proposed by STACK Infrastructure, Inc. The project would involve construction of a data center campus in the City of Hayward, Alameda County. The project will provide good jobs, will hire trained local construction workers, maintain area wage standards and provide health insurance. This will ensure that the project provides maximum economic and employment benefits to Alameda County. In addition, the project will provide job training opportunities for the youth of the region for careers in the construction industry through the hiring of apprentices and financial support for joint labor-management apprentice training programs. We are pleased to be able to support the project.

Sincerely,

Tanya A. Gulesserian
