

<b>DOCKETED</b>	
<b>Docket Number:</b>	24-OIIP-02
<b>Project Title:</b>	Informational Proceeding on Lithium Valley Vision
<b>TN #:</b>	262108
<b>Document Title:</b>	Presentation Slides - Tom Taylor
<b>Description:</b>	N/A
<b>Filer:</b>	Erik Stokes
<b>Organization:</b>	California Energy Commission
<b>Submitter Role:</b>	Commission Staff
<b>Submission Date:</b>	3/6/2025 5:48:03 AM
<b>Docketed Date:</b>	3/6/2025

An aerial photograph of an industrial facility, likely a refinery or chemical plant, situated in a desert-like environment. The facility features several large storage tanks, distillation columns, and a network of pipes. Plumes of white smoke or steam are rising from various parts of the complex. In the foreground, there are dirt roads and a small yellow building. The background shows a vast, flat landscape under a clear sky, with a body of water visible in the distance.

# EV MARKET, DC ACTION AND THE SUPPLY CHAIN

State of the market and supply chain

Tom Taylor

Atlas Public Policy

February 2025

A policy and data research firm established in 2015

Atlas Public Policy equips businesses and policymakers to make **strategic, informed decisions that serve the public interest**. We build analytical tools and dashboards using powerful, accessible technology, and offer expert advisory services to tackle a wide range of current and future pressing issues.

## OVERVIEW

- EV demand is growing
- Battery supply chain is growing to meet demand
  - That includes lithium extraction
- How Federal Policy is supporting developments
- Challenges and opportunities moving forward

# 2024 SAW RECORD EV DEMAND

New Light-Duty EV Sales by Year  
(including PHEV and BEV)

Top States for New Light-Duty EV Sales Market  
Share in 2024

**\$240  
BILLION IN  
ANNOUNCED DOMESTIC  
INVESTMENT  
FOR EV,  
CRITICAL  
MINERALS  
AND  
BATTERY  
PRODUCTION**

Status of Battery Supply Chain Projects (\$ billion)

Source: [Clean Economy Tracker](#)

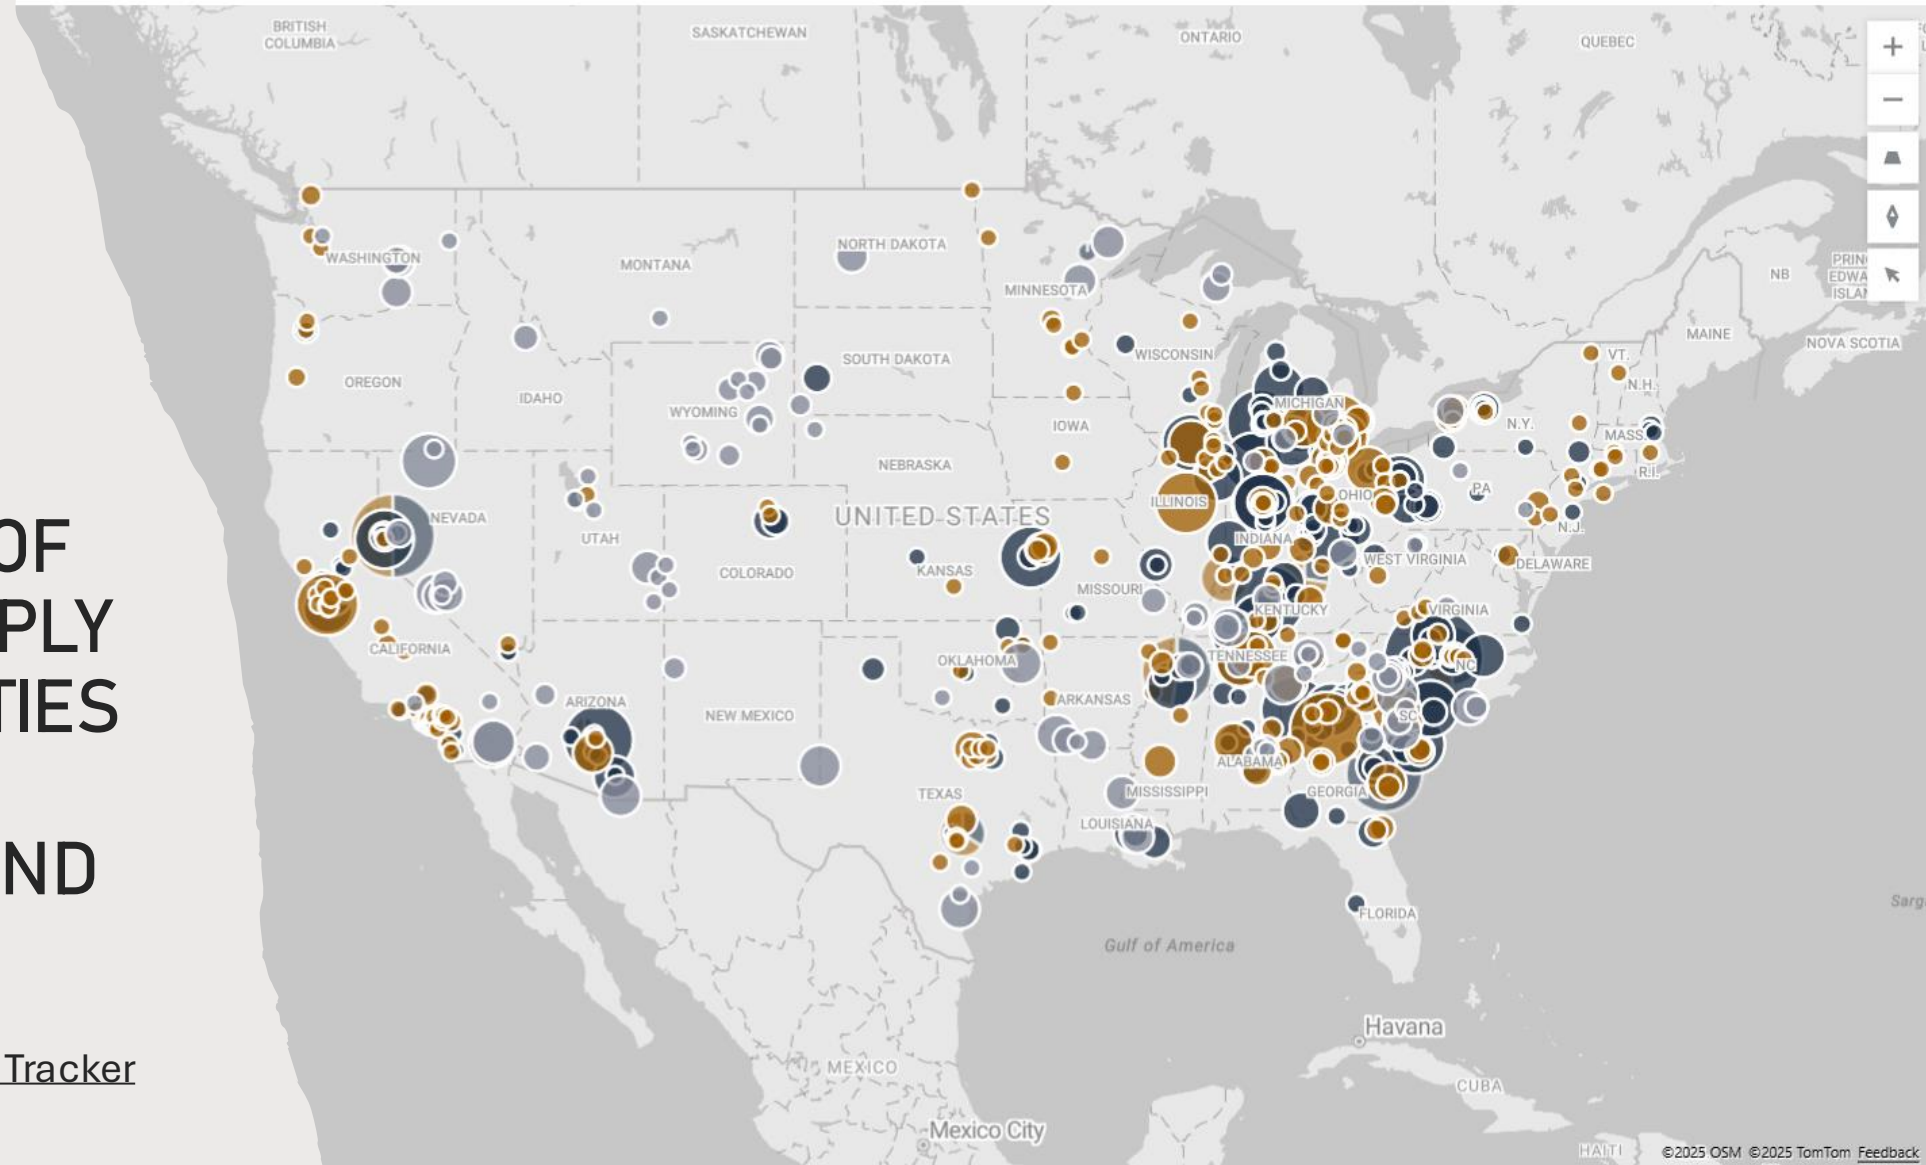

## Manufacturing Facilities

Size of a facility's bubble represents the size of its announced investment.

Manufacturing Sector ● Batteries ● Electric Vehicles ● Minerals

# CLUSTERING OF BATTERY SUPPLY CHAIN FACILITIES IN MIDWEST, SOUTHEAST AND SOUTHWEST

Source: [Clean Economy Tracker](#)

Data updated: 2/17/2025

# AUTOMAKERS GET MORE INVOLVED IN THE SUPPLY CHAIN

- Historically, automakers have outsourced much of the supply chain, reliant on suppliers to support production
- New approach including:
  - GM buying through a supply chain agreement with Thacker Pass in Nevada
  - GM will receive “exclusive” rights to Thacker Pass’ first phase of lithium and lithium carbonate production, which is expected in 2027, as well as a right of first offer on its second phase
  - Ford will receive lithium hydroxide produced by the Albemarle Corporation from either the United States or a country with whom the U.S. has a Free Trade Agreement, to retain 30D tax credit eligibility
  - Ford will also receive lithium hydroxide produced by EnergySource Minerals at its Project ATLiS facility in the Imperial Valley

# A GROWING DOMESTIC SUPPLY CHAIN HAS SEEN COMPREHENSIVE FEDERAL SUPPORT

## Supply Side Support

*Tax credits (Advanced Manufacturing Production Tax Credit and Qualifying Advanced Energy Project Credit)*

*Grants (research and production)*

*Loans (Loan Programs Office)*

## Demand Side Support

*Clean Vehicle Tax Credit (incentive to manufacture, source and produce batteries in North America)*

## Other Indirect Market Support

*Other EV uptake tax credits*  
*EV charging grants*  
*Bus and other deployment efforts*

# PERIOD OF TUMULT AND UNCERTAINTY

- Battery supply chain projects cancelled in 2025:
  - FREYR (Georgia)
  - KORE Power (Arizona)
  - Imperium3NY (New York)
  - Aspen Aerogels (Georgia)
  - Canoo (Oklahoma)
- California projects
  - Statevolt project on pause
  - Note the [suspension](#) of BHE Renewables geothermal projects in California in February 2025
    - Trying to determine if permanent development

# KEY DC DEVELOPMENTS TO WATCH IN 2025

- The state of EV demand
- State regulations
- Federal funds availability
- [Executive Order](#) in January 2025, President Trump called for government to:
  - “identify all agency actions that impose undue burdens on the domestic mining and processing of non-fuel minerals and undertake steps to revise or rescind such actions,”
  - “efforts to accelerate the ongoing, detailed geologic mapping of the United States,”
  - “ensure that critical mineral projects, including the processing of critical minerals, receive consideration for Federal support”
- Case of federal tax credits
  - State of tax credits that support supply chain and demand
- Tariffs and impact on domestic supply chain
