## **Stop the SJC Lithium Ion Storage**

To whom it may concern,

As a resident of San Juan Capistrano and a Firefighter it is with great concern and objection I am bringing forward my vote against the proposed lithium ion storage facility. As a firefighter I have seen first hand the damage a lithium ion battery can do to life and property. Lithium ion fires are extremely dangerous, harmful, unpredictable and extremely hard to put out. These fires on small scale I.E. e-bikes, e-scooters and e-vehicles easily have a will end a firefighters career due to the dangerous gas<sup>™</sup>s that are put out during combustion. Imagine a fire on a large scale? To the public that don<sup>™</sup>t have protection against these extremely harmful gas<sup>™</sup>s? As a firefighter we stand to save life and property. In that order. I hope you can do the same.  
Respectfully,
