Strongly Opposed to BESS project in San Juan Capistrano

I am a resident close to the proposed BESS facility in San Juan Capistrano. Please do not build this potentially dangerous facility. I take my kids for bike rides and hikes in the hills and along the creek where they want to build this facility. I enjoy the beauty of the area every day. I would hate to see what little open space we have left bulldozed for any purpose. Please do not continue with this project and leave the land open to enjoy.
