No on Compass Energy Storage Project

I am speaking on behalf of the children and families that live in the community near this project. Some not informed of what will be happening at all. The creek and all of the animals that will be poisoned by that battery storage project. I love to hike in that area but most definitely will not of that battery storage unit goes in. The results from that storage unit will destroy the land around the area for miles. We do not even know the results of something like this. I am speaking up to say NO on this project!

Sincerely,
Kristen Page
