## **Battery Storage in San Juan Capistrano**

I strongly oppose the battery storage facility as most of neighbors do who are aware of the plans. This would be directly behind our home over the hill. People walk and bike this recreational space and it is an asset to our community to have access to these trails. As homeowners and taxpayers, we do not want any batteries buried near us due to the environmental impact. We already have a difficult time getting home insurance due to fire danger, and we certainly do not need a battery storage facility in the same vicinity that is considered a dangerous fire zone. Please listen to the people who live here, and do not allow this to happen to our homes.
