The Compass Project Fire Plan has to be updated New Fire Map

The Fire maps have been updated. The Compass project needs to address that the proposed location is in a High Fire zone area surrounded by Very High Fire Zones. There are no barriers to wildfires in this valley. There is open space, roads, railway tracks, a stream and a few buildings housing low-income residents and seniors. Further down the street are schools and the historic Mission Basilica San Juan Capistrano.

This proposed facility is open with only a perimeter wall surrounding it and vulnerable to embers lighting on and into the battery containers.

Additional submitted attachment is included below.
