## **Stop the lithium battery storage facility!!!**

I live in a neighborhood less than 3 miles from the proposed lithium battery storage facility in San Juan Capistrano. Myself, neighbors and community are strongly against this specific land being used as a lithium battery storage facility because of the potential environmental danger if it were to catch fire like the most recent fire in Moss landing. There are 2 schools, and multiple neighborhoods within 3 miles of the proposed site. The threat to my community's health is not a risk we are willing to take! There's has to be better options for the storage considering all of the open land in Southern California, this location does not make sense. Please do not approve this!!! Our small community is at risk!!!
